[12:33] <darksydephil> okay
[12:33] <darksydephil> gotta couple of things to add and then we can get started
[12:34] <darksydephil> got some fanart, nice
[12:37] <darksydephil> ive got good Patreon news today, sweet
[12:43] <darksydephil> why do i need a death counter for a game made for quick and easy deaths. this isn't dark souls
[12:44] <darksydephil> exactly, in a game wehre theresr potential to die a million times in a very short period, theres no point in a death counter. more of a hassle than anything else to have to constantly update it
[12:44] <darksydephil> and ill forget anyway
[12:44] <darksydephil> okay so stream is working fine?
[12:44] <darksydephil> ok ill tweet that we're live then
[12:47] <darksydephil> call me daddy again and you'll enjoy a nice timeout lol
[12:47] <darksydephil> that shit is creepy man
[12:48] <darksydephil> im pretty sure no streamer would enjoy being called daddy by their viewing audience lol
[12:48] <darksydephil> im pretty sure im no father figure! holy crap
[12:49] <darksydephil> so this collection was \$40
[12:49] <darksydephil> hopefully people like it and it gets some traction
[12:50] <darksydephil> wait its only 30fps?? seriously1?!?!
[12:50] <darksydephil> i fucking though tit was 60
[12:50] <darksydephil> shit
[12:50] <darksydephil> i gotta restart the stream then
[12:50] <darksydephil> its set up wrong
[12:50] <darksydephil> i was told it was 60 lol
[12:50] <darksydephil> ok brb gonna restart
[12:53] <darksydephil> i guess he thought i was joking or something
[12:54] <darksydephil> okay stream should be back at 1080p/30fps now

----- #DARKSYDEPHIL 20170702-01 CRASH 3 2ND.LOG

[12:29] <darksydephil> hello al
[12:29] <darksydephil> all
[12:29] <darksydephil> wow first line i type is a typo lol
[12:30] <darksydephil> yeah yesterday someone tipped me and called me Dave so it's a running joke now
[12:31] <darksydephil> hotsauceistooohot : drinking an energy drink at noon doesn't keep me up at 2am. just saying, that pretty much defies science
[12:32] <darksydephil> hotsauceistooohot again, ill say it: you don't understand basic science. please stop now.
[12:32] <darksydephil> it's like arguing with a flat earther.
[12:33] <darksydephil> stream working?
[12:34] <darksydephil> we're already got some muttonheads here today i see
[12:34] <darksydephil> okay ill tweet that we're live
[12:35] <darksydephil> ok brb grabbing drinks
[12:39] <darksydephil> anyone else want to spew some nonsense before we get started?
[12:39] <darksydephil> i figure we'll make it easy on the mods by just banning your dumb asses now lol
[12:41] <darksydephil> hotsauceistooohot ive talked about this topic numerous times with full explanations why, you just didn't listen or weren't around and im not going to fully repeat myself just for you
[12:42] <darksydephil> as it is my schedule is working for now so i have no idea how this is your concern either
[12:42] <darksydephil> so how about you just sit back, enjoy the stream and stop being so intrusive?
[19:56] <darksydephil> what an idiot

[12:31] <darksydephil> sup everyone
[12:32] <darksydephil> i still dont udnerstand how to 100% thi sgame, everyone says conflicting stuff so
[12:32] <darksydephil> btw we have a new cheer image thanks to Dr Zombius, better late than never
[12:33] <darksydephil> hotsauce does nothing but start shit and try to stir up drama, and nobody cares. so no, he can't come back
[12:33] <darksydephil> and don't bother asking me shit like that, he can ask himself
[12:34] <darksydephil> i dont know anything about it EricEricson , as ive said hundreds of times, i only pay attention to my own stuff
[12:35] <darksydephil> i already fought the darklurker, remember i just did the DS3 DLC and it's in there as a normal enemy you have to avoid lol
[12:38] <darksydephil> if there really is THIS much hidden stuff i dunno if im going to 100% then
[12:38] <darksydephil> we'll see, i want to play every stage at least once but im not going to spend tons of hours redoing the same shit over and over
[12:40] <darksydephil> um, pasta is actually supposed to be cooked al dente at all times, but I actually overcooked it a bit more than that. so you fail xthewrath93x
[12:40] <darksydephil> ok stream working?
[12:40] <darksydephil> cool ill tweet out then
[12:41] <darksydephil> ok just tweeted
[12:41] <darksydephil> brb
[12:42] <darksydephil> btw if anyone cheers you'll see a new popup notification, its pretty sweet
[12:45] <darksydephil> hilarious
[12:46] <darksydephil> enjoy your timeout asshole
[12:47] <darksydephil> the stream did start 20 minutes ago
[12:48] <darksydephil> time to flush the turd lol

[12:30] <darksydephil> hello all
[12:32] <darksydephil> the order is injustice 2, then tekken 7. tonight its usf2 on 2nd stream
[12:32] <darksydephil> unless people overwhelmingly demand otherwise
[12:32] <darksydephil> im not getting the dlcs
[12:32] <darksydephil> ollyorange : becuase i dont have money to blow
[12:34] <darksydephil> i have no idea what the dlcs cost, but i can put any funds to better use than to play a character once and never again
[12:35] <darksydephil> im only playing as batman and aquaman today, maybe darkseid, bc thats all i can remember lol. can't even really remember darkseid
[12:37] <darksydephil> okay stream working?
[12:37] <darksydephil> ill tweet that we're live
[12:37] <darksydephil> ok brb, grabbing drinks

[19:17] <darksydephil> yo

[19:21] <darksydephil> setting u pnow

[19:21] <darksydephil> its always like that with fighting games

[19:22] <darksydephil> yup stupid "stream monster" idiots gotta come on and shit all over the place

[19:25] <darksydephil> its part fact, part act. like im not THAT ANGRY most of the time if i lose. i realize online play is shit

[19:25] <darksydephil> but i let that innate anger just explode and people react to it lol

[19:25] <darksydephil> most people wont' do that on a stream because they want people to come back and watch them constantly play that same game to make money etc

[19:26] <darksydephil> i dont care, because i dont only play one kind of game. i can shit on USF2 tonight and play it again in a week

[19:26] <darksydephil> if i ONLY plays USF2 and shat on it constantly, that wouldn't work lol

[19:26] <darksydephil> you do notice though, i will quit games i hate. like SFV. i'm never playing that piece of shit again

[19:29] <darksydephil> ive been covering fighting games since the launch of SFIV. and ive never changed. its the viewing audience that did

[19:29] <darksydephil> i won't suck a game dev's dick over a game to get more people to watch lol

[19:30] <darksydephil> it was like 300 idiots from 4chan coming in here

[19:30] <darksydephil> they didn't even understand fighting games lol

[19:30] <darksydephil> the dregs of society

[19:34] <darksydephil> holy fuck, i can do all the gief combos now

[19:34] <darksydephil> lol

[12:26] <darksydephil> um, this isn't a redemption run

[12:26] <darksydephil> so stop this shit already, because im not gonna have drama-filled debates

[12:26] <darksydephil> im here to play a game and have fun, and the only guarantee is no dick lightningin spam

[12:27] <darksydephil> anybody bitching about stream chat interaction in a stream where ive been massively interacting with chat since March can be shown the door right now lol

[12:29] <darksydephil> yes i got your intro thirdeyethethird 'no worries

[12:29] <darksydephil> Onoderalost im not sure, i may summon, i may not, i may do pvp, i may not

[12:30] <darksydephil> gwent

[12:30] <darksydephil> to play the game and have fun?

[12:30] <darksydephil> and to not dick lightning cheese like i did the first run

[12:30] <darksydephil> plus they changed the game in this version

[12:30] <darksydephil> Leonaras : in 2 months

[12:30] <darksydephil> see you in september

[12:31] <darksydephil> wow apparently 2 people subbed at like 9 in the morning

[12:31] <darksydephil> nice!

[12:33] <darksydephil> ok got some fanart to add and then we'll get started

[12:34] <darksydephil> ratchefan12 : closet homosexuals probably. can't fess up to their own sexuality, ashamed of it. Men who are confident in their sexuality don't care if other guys are shirtless

[12:34] <darksydephil> i mean fuck, i watch wrestling every week and im not triggered by dozens of shirtless guys

[12:35] <darksydephil> okay stream starting now

[12:36] <darksydephil> 4 thousand pixels you can't see

[12:37] <darksydephil> i like how Dead ambrose went off script on commentary this week and tore into teh

Great Balls of Fire ppv name, he was like "who the hell named it that? it's the stupidest thing ever?" and the other commentators were dead silent

[12:37] <darksydephil> DEAN ambrose, not dead

[12:38] <darksydephil> no games today, it's only serious business

[12:39] <darksydephil> if your first comment is a bitch comment, you can enjoy a time out lol

[12:40] <darksydephil> im trying to remember, this is the one with the giant dead king you fight, right? dont remember if he was optional or not

[12:41] <darksydephil> i do remember this one has a bajillion fucking skeletons and tons of optional orders you can complete it in

[12:41] <darksydephil> stream working?

[12:41] <darksydephil> ok ill tweet that we're live

[12:48] <darksydephil> it stands for Kicked Out of stream chat for being a worthless turd

[15:29] <darksydephil> im back

[15:29] <darksydephil> enjoy the ban nexx lol

[17:21] <darksydephil> i love it when you braindead trolling idiots show up for dark souls streams

[17:21] <darksydephil> the only downside is we get legitimately nice people who get turned off by the morons

[17:21] <darksydephil> and i can't moderate because im playing the game

[17:22] <darksydephil> yeah i saw that Zordon666

[17:22] <darksydephil> the guy was just being nice and the fuckwads didn't like that one bit

[17:22] <darksydephil> hopefully he'll come back

[19:40] <darksydephil> okay ill tweet

[19:41] <darksydephil> yeah someone on stream earlier was saying hter ewas an audio delay, but i checked the vids and they're fine

[19:41] <darksydephil> so any delay must have been a twitch issue

[22:01] <darksydephil> great stream folks! tons of progress

[12:35] <darksydephil> last giant is dead, so is the dragonrider

[12:36] <darksydephil> right now im in the stupid shipyard area that sucks ass

[12:36] <darksydephil> i seriously hate this area from the first game

[12:36] <darksydephil> and i only have one estus left lol

[12:36] <darksydephil> using a torch means no shield

[12:37] <darksydephil> ill probably give it a shot if it doesn't majorly interfere with other stuff
[12:37] <darksydephil> i.e. if it releases before my time off. if during, theres pretty much no point
[12:37] <darksydephil> okay stream working everyone?
[12:37] <darksydephil> cool let me tweet
[12:44] <darksydephil> theres an animated salt emote? lol
[12:44] <darksydephil> i didnt even know you could make animated emotes
[12:44] <darksydephil> derich it sure sounds that way
[12:45] <darksydephil> i guess you can tell theres hype when we're getting in good cheers and i haven't said a word yet lol
[12:45] <darksydephil> later Derich
[17:05] <darksydephil> there is no rule to any of this shit, it's all an "honor code" by online idiots who think it actually makes them have a bigger dick if they artificially increase difficulty in something
[17:05] <darksydephil> luckily i dont give a shit about appeasing those said idiots
[17:06] <darksydephil> EricEEricson : its not hard to unplug the ethernet cable
[17:07] <darksydephil> by the way, im pretty close to finding the blacksmith that makes the boss weapons, aren't i?
[17:08] <darksydephil> i remember it being in this area bc those bugs are coming up
[17:08] <darksydephil> I BETTER NOT GET HER FUCKING KILLED THIS TIMEi also better not kill the old man in the chair so i can fight darklurker lol
[17:09] <darksydephil> Zahvone pink lemonade was my fave flavor, also fruit punch and the lemon lime one. i hated the blue one
[17:09] <darksydephil> and watermelon too, tasted fake
[17:10] <darksydephil> i dunno, i only had the pink before
[17:11] <darksydephil> igoturcorona i might see it during my time off actually
[17:17] <darksydephil> i think theres an option you have to turn off

[19:26] <darksydephil> actually doing the dsii vids playlist first, then starting this tream
[19:26] <darksydephil> stream
[19:27] <darksydephil> dude twitter is astoundingly fun right now
[19:27] <darksydephil> its like every braindead idiot is crying in unison
[19:27] <darksydephil> its cool Derich
[19:30] <darksydephil> probably once the sub expires
[19:31] <darksydephil> they've mass reported me a ton of times
[19:32] <darksydephil> im not breaking any rules of anything so its just more wasted time, Twitch just blows it off
[19:32] <darksydephil> that....is some name isukfartsoutofaskunksass
[19:32] <darksydephil> just some leftovers Derich, nothing special
[19:32] <darksydephil> Zahvone copyright of what?
[19:33] <darksydephil> yeah i own it and am renewing it, but its a moot point. if anybody else tried to get it, they have to provide a long running history of making gameplay videos and being called darksydephil, which they can't
[19:34] <darksydephil> even if they paid to get the trademark, if they tried to do anything legally with it, they'd be stripped of it lol
[19:35] <darksydephil> exactly Zahvone. it would be utterly useless. they'd actually pay a minimum of \$500 or more to get a trademark they'd lose the instant they tried to do anything with it, because it can't be upheld in a court of law
[19:37] <darksydephil> ok starting up stream now
[19:41] <darksydephil> okay, stream working?

[19:42] <darksydephil> ok great, tweeting it out now
[19:44] <darksydephil> you wont get a straight answer from this chat lol

[11:29] <darksydephil> nice, i got new fanart!
[11:30] <darksydephil> yes
[11:32] <darksydephil> blue_blur64 : monetization, no. but id lose my partnership and be banned from any others. so its just as bad
[11:32] <darksydephil> id have to wait until like, October to be repartnered
[11:34] <darksydephil> wow even MORE fanart
[11:34] <darksydephil> i just added it
[11:35] <darksydephil> 2 new fanarts today
[11:37] <darksydephil> actually stuart my pc can stream 1080p/60fps but i can't both capture AND stream simultaneously without massive frame drops. i think what most Twitch streamers do is just auto-archive the

streams and dump them raw onto youtube, but i dont do that. i split into parts etc
[11:37] <darksydephil> stream working fore verone?
[11:37] <darksydephil> wtf
[11:38] <darksydephil> lets try that again
[11:38] <darksydephil> stream working for everyone?
[11:39] <darksydephil> stuart: youtube lets you stream at unlimited bandwidth, so i could stream at 9k AND record at 9k quality. Twitch only allows 6k, so forcing the CPU to encode at two completely different bitrates simultaneously is what kills it
[11:44] <darksydephil> your bowels had better be ready! lol
[18:08] <darksydephil> hold up
[18:08] <darksydephil> guess what all?
[18:08] <darksydephil> got a new response from Curse
[18:08] <darksydephil> after showing them all the info and that the claims came from a gmail account, they believe the claims are 100% bogus too
[18:09] <darksydephil> they said to file counter notifications, but also keep following up with ROckstar to see if they'll intervene
[18:09] <darksydephil> but the good news is, obviously Curse won't drop me if we both think the stirkes are bogus

[11:46] <darksydephil> is this a sign of....change?!?
[11:47] <darksydephil> you guys have no idea. this is one of the best days in my entire run doing this as a job

[17:19] <darksydephil> the trolls are so salty
[17:19] <darksydephil> they're forming conspiracy theories about it
[17:19] <darksydephil> like I lied about the Atlus strike and the rockstar strikes to make money
[17:20] <darksydephil> they just posted a thread on Neogaf about it, with zero evidence of anything

[19:29] <darksydephil> hello!
[19:30] <darksydephil> setting up now
[19:31] <darksydephil> soooo whats sad right now, is youtube ad revenue. its been halved for the summer, as always. im getting the same views i had the last 2 months and making 50% as much daily. what a great website
[19:31] <darksydephil> here's hoping it really picks up once new releases hit in august and september
[19:32] <darksydephil> Twitch, however, remains good as none of that stuff matters here lol
[19:32] <darksydephil> yeah
[19:32] <darksydephil> theres nothing to stop Atlus from making the same mistake all over again
[19:33] <darksydephil> since there was no logical reason for them to do it the first time
[19:36] <darksydephil> ok stream starting up in a sec
[19:38] <darksydephil> youtube would need an actual human to implement a change like that, but its all run by algorithms and bots now
[19:38] <darksydephil> SanguineNite
[19:38] <darksydephil> youtube lost around 50% of their advertiser base
[19:39] <darksydephil> most of their remaining advertisers are US based
[19:39] <darksydephil> they used to have WAY more international ads but they all got pulled
[19:40] <darksydephil> it just started like 2 minutes ago so
[19:42] <darksydephil> youtube gaming doesn't even exist lol
[19:42] <darksydephil> okay let me tweet that we're live and we'll get staretd

[12:21] <darksydephil> hello everyone!
[12:25] <darksydephil> ok setting up now
[12:27] <darksydephil> people still play SFV because they're mindless sheep. they have to buy into what's popular and Capcom needs to push it because they literally have nothing else to sell right now in the realm of fighters. so the peripheral companies, streamers and everyone will keep pushing the golden turd to keep Capcom fighters alive despite it being the worst one in competitive history. it's a pathetic situation
[12:28] <darksydephil> yup i heard about TOkido winning

[12:27] <darksydephil> okay good
[12:27] <darksydephil> so the destiny 2 beta is a huge flop on ps4 lol
[12:27] <darksydephil> entire thing doesn't work, everyone just gets the same error code
[12:28] <darksydephil> for 2 hours running now
[12:28] <darksydephil> now i have to wonder about tomorrow on xbox one for me
[12:28] <darksydephil> oh it finally started working TaurusOxford ? how long did it take? twitter has over 52k tweets about it not working lol
[12:29] <darksydephil> well good, that makes me feel better about tomorrow then
[12:30] <darksydephil> danielsvenson2 : you don't pay much attention, do you? I'm playing on Xbox One and that doesn't launch until tomorrow
[12:30] <darksydephil> because the viewer provided an xbox one code?
[12:32] <darksydephil> just be happy i didnt say i wanted to rip your head off and slam dunk it like a basketball.

apparently my SJW stalkers got triggered last night lol

[12:33] <darksydephil> luckily Twitch doesn't take them seriously. these assholes mass report me daily for every little thing hoping they'll ban me from here for no apparent reason

[12:34] <darksydephil> KushiYakitori : last night someone was using lag tactics in USF2 and i got REALLY enraged, and said i'd like to rip their head off and slam dunk it like a basketball. so the SOK mass reported me on twitch for it LOL

[12:35] <darksydephil> see here's the thing

[12:35] <darksydephil> they've mass reported me so much and "cried wolf" that they've completely lost any power to actually legitimately report me for anything

[12:35] <darksydephil> twitch doesn't care because they know these kids do it daily

[12:35] <darksydephil> and its always bullshit

[12:36] <darksydephil> lol

[12:36] <darksydephil> so their channel got shut down, is back up, i had nothing to do with it, but they're taking it out on me? that's some high level intellect there

[12:39] <darksydephil> okay is the stream working?

[12:39] <darksydephil> okay ill tweet that we're live

[12:41] <darksydephil> ok brb, grabbing drinks

[12:41] <darksydephil> then we'll get started

[12:46] <darksydephil> um in 6 feet tall

[12:46] <darksydephil> did that guy really make a height joke about me???

[12:46] <darksydephil> lol

[12:47] <darksydephil> damn i think i need to power down my ps4

[12:47] <darksydephil> its giving me that error wher eit thinks im trying to eject a disc

[17:35] <darksydephil> Jessica_Parker , instead of talking out of your ass, why don't you actually ask a twitch mod about what is and isn't allowed on streams

[17:35] <darksydephil> because i did. and what i do IS allowed.

[17:36] <darksydephil> or else i'd have been banned a LONG time ago'

[17:36] <darksydephil> um, ive talked to a REAL twitch mod via their email system

[17:37] <darksydephil> what isn't allowed is specifically asking for people to give bits for a certain reason. so like saying "i need to buy a game, please send me \$60 in bits today" etc

[17:37] <darksydephil> or demanding people pay you bits in order to stream etc

[17:37] <darksydephil> you can mention bits. they exist, it's not supposed to be kept a huge secret

[17:38] <darksydephil> and in fact, when it comes to tips, you can do whatever you want. tips are outside of the bit system and you can literally say or do whatever in regards to them

[17:38] <darksydephil> twitch has no say over what you do with tips since its not part of their business model

[17:39] <darksydephil> Jessica_Parker are you retarded or something? i just laid out factual discussion from a real conversation with twitch mods and your response is "kettle meet pot." No, really, are you slow?

[17:39] <darksydephil> Skooma: asking for tips is actually fine, I've confirmed it. I have it in writing lol. but I wouldn't specifically ask for tips anyway in the manner that's not allowed for bits

[17:40] <darksydephil> simply saying you can support a stream by cheering with bits, subbing or tipping and that it helps stuff out is 100% allowed and always has been. or else how the fuck would viewers even know that they exist?

[17:40] <darksydephil> these dumbfuck kids are just that: dumb as fuck. they don't understand that the world isn't black and white and that things are subjective. im not on here constantly begging nonstop for money. that's what twitch doesn't want: people holding viewers over the fire to pay them for stuff

[17:42] <darksydephil> doritoslayerz : what that means is, you can't use bits as e-currency for transactions. you can't ask someone for \$60 in bits and then send them a game, for example.

[17:42] <darksydephil> if someone is just sending you bits as a donation/tip, then it's 100% allowed and yes, you can even call it your business. but you can't PURCHASE things legally with bits

[17:43] <darksydephil> the problem is, kids aren't smart enough to read legalese and understand what it means because none of them have an IQ high enough

[17:43] <darksydephil> and yes, i'm well aware that a lot of people who constantly false report me are adults. but

they have pea brains of children lol

[17:44] <darksydephil> anyway im off to eat dinner

[17:44] <darksydephil> enough of that dumbass

[13:34] <darksydephil> GreatestStoryNeverTold : they're not, at least in the case of Destiny 2, tons of big streamers were paid to play it all weekend. it got leaked
[13:35] <darksydephil> GreatestStoryNeverTold it's all over twitter. people up in arms that all of twitch is Destiny 2 and then people revealing its bc they got paid lol
[13:35] <darksydephil> and as for Splatoon 2, its not surprising considering its the only new game for the Switch in months.
[13:35] <darksydephil> so of course people will play/cover it
[13:37] <darksydephil> okay is the stream working?
[13:37] <darksydephil> there is no sound, xbox one dashboard has none
[13:38] <darksydephil> okay ill tweet that we're live
[13:40] <darksydephil> purging the chat of morons before we start
[13:40] <darksydephil> good think they spoke up early
[13:41] <darksydephil> yeah, remember when DLCs meant a substantial amount of new content to a game that wasn't already in the base game? lol
[13:41] <darksydephil> it seems Undead Nightmare was one of the last times DLCs were substantial, with the exception being From Software games

[12:44] <darksydephil> but i dunno
[12:46] <darksydephil> i actually WANT fish but dont you have to clean out hte tank completely periodically? which would be a nightmare to do alone esp. with my back, dont want to reinjure it

[12:46] <darksydephil> but i could be totally wrong, maybe there are pumps etc now that do it for you
[12:47] <darksydephil> see fuck that, i couldn't lift an insanely heavy tank by myself etc its too risky
[12:49] <darksydephil> yeah see, id want a nice tank with a variety of fish taht can live together
[12:49] <darksydephil> i already know what i want, some of those dope cleaner shrimp and stuff

[17:18] <darksydephil> the fact is if they're coming here to discuss this they have no reason to use stream chat, because its not for that discussion

[12:23] <darksydephil> yeah the follows have been pretty crazy this last month
[12:23] <darksydephil> i just hope these people actually show up for new releases and arent all bots lol
[12:25] <darksydephil> 40k viewers would never happen
[12:25] <darksydephil> but a few thousand for big new releases? ive done it before
[12:25] <darksydephil> and now that im doing cheers/subs/tips i imagine that would blow up
[12:25] <darksydephil> so depending on how far i get today, it'll determine tomorrows stream
[12:26] <darksydephil> i dunno if ill finish up undead nightmare or not
[12:26] <darksydephil> so ill probably put tomorrow to a vote then
[12:27] <darksydephil> either a 2nd Nier run, or Crash 1, or USF2
[12:29] <darksydephil> i played crash 1 2 years ago fyi
[12:29] <darksydephil> and crash 2 last year

[19:29] <darksydephil> lol
[19:29] <darksydephil> sup all, setting up now
[19:30] <darksydephil> oh come on
[19:31] <darksydephil> haven't you ever watched a 7 hour podcast that ends up being 100% full of misinformation and bullshit? i mean, that's a great use of time
[19:31] <darksydephil> its not like lives or jobs should get in the way of 7 straight hours of lies and nonsense. that's time that's meant to be wasted
[19:31] <darksydephil> oh
[19:32] <darksydephil> im referring to a 7 hour podcast that my detractors did a few months back in response to my leaving machinima and testing the waters with a new partnership company. they had "guests" on claiming to work for said company etc. when in the end, I never even WORKED with that company. It was 7 completely wasted hours lol
[19:32] <darksydephil> of course they'd never admit that, they still to this day spin crazy conspiracy theories that i worked with that company so they dont look like complete fucking morons
[19:34] <darksydephil> im sure there are probably tons of conspiracies right now about stuff like, what i did during my time off etc lol
[19:35] <darksydephil> i was the second gunman on the grassy knoll. true story.
[19:37] <darksydephil> im obviously to blame for the transgender ban on the US military, i mean come on
[19:39] <darksydephil> no, the truth is, the ban was done bc there is a spending bill being massively help up over the fact that allowing the transgendered soldiers into the military, as Obama signed into law, would provide for sex change operations and therapies. and lawmakers did NOT want to approve that stipulation. so Trump finally

just said fuck it and banned them all so that there wouldn't be a need for those sex change costs etc. So now, his spending bill can get approved and he can get his border wall

[19:39] <darksydephil> that's 100% true by the way, its confirmed. the transgender ban has nothing to do with bias against transgendered people

[19:40] <darksydephil> basically the US government is a fucking convoluted, evil system. i have no fucking idea how we even allow it

[19:40] <darksydephil> people are just so complacent, they wont do anything about broken Washington DC is

[19:41] <darksydephil> anyway, is the stream working? lol

[19:41] <darksydephil> ok ill tweet that we're live. i'll leave the political discussion over now bc im so sick of the damn system we have, i dont even want to think about tit

[12:38] <darksydephil> EVERYONE is having problems with overwatch

[12:38] <darksydephil> apparently the update has completely fed up the matchmaking

[12:39] <darksydephil> im downloading the patch right now, since you know, it didn't auto download like its supposed to

[12:39] <darksydephil> same Popsicolo

[12:39] <darksydephil> seems like a shitty launch

[12:46] <darksydephil> they nerfed roadhog? wow

[12:46] <darksydephil> last time i played he was godlike

[12:51] <darksydephil> megabytes per second i mean

[12:53] <darksydephil> what on earth is a non sequitar ending? the original IT had a very definitive ending

[19:32] <darksydephil> all frozen dinners take that long in the oven

[19:32] <darksydephil> but if you make them in the microwave they're awful, often turn out dry as hell and

flavorless

[19:34] <darksydephil> LOL if you microwaved kid cuisine it turned out like rubber

[19:36] <darksydephil> there was an update patch for USF2

[19:36] <darksydephil> wonder what it changed

[21:57] <darksydephil> im not mad at werktwerk

[21:58] <darksydephil> i just think what he said was incredibly stupid and/or a bad joke. everyone knows that LTG and i are two completely different people who have no relation. we dont even do the same things. why would we road trip to evo? its fucking stupid

[21:58] <darksydephil> now if im playing on stream im going to give him a thank you for the bits but i dont have to address that message bc it's just going to derail the stream chat more and honestly, i dont care about that subject

[21:58] <darksydephil> i didnt think it was offensive btw no worries

[21:59] <darksydephil> not like i got angry or banned you lol

[21:59] <darksydephil> and yeah, it'd be popular with morons who just want to see drama and stupidity, both of which i try to avoid

[12:32] <darksydephil> hello everyone
[12:35] <darksydephil> it's a plothole per my line of reasoning that Mikan's "love" was someone she knew

before school. but since SO MANY people have rushed to tell me it's not a plothole and i'm wrong, you've all spoiled a key factor that shouldn't have been spoiled. so yeah.

[12:36] <darksydephil> im alright, setting up now

[12:37] <darksydephil> lol oh boy, is this #conspiracytalk this morning?

[12:38] <darksydephil> maybe we didn't land on the moon. Maybe, just maybe, the moon landed on US.

[12:39] <darksydephil> okay starting up the stream

[12:40] <darksydephil> i already have an ID chip in side me, it tracks my GPS location in relation to all nearby tissue boxes so i can fap at a moment's notice without having to scramble to find one

[12:40] <darksydephil> brb gonna grab drinks as the stream starts up

[12:44] <darksydephil> stream working everybody?

[12:44] <darksydephil> ok ill tweet it out, thanks

[12:45] <darksydephil> enjoy your time out, asshole

[12:45] <darksydephil> lol

[12:46] <darksydephil> as long as my voice holds out until the trial im good, bc then its all voice acted

[12:46] <darksydephil> and im assuming the investigation will be 1-2 hours so

[12:46] <darksydephil> Emoji movie did well because Americans are braindead idiots

[17:09] <darksydephil> ShyGuysaysHi

[17:09] <darksydephil> im not rushing the game at all

[17:10] <darksydephil> what im saying is, playin ga game that has needless filler and dialogue is tiring

[17:10] <darksydephil> not evne just reading it, but playing it. its taking too damn long, its too long winded

[17:10] <darksydephil> this happens a LOT with books by the way, and it comes through with this game because its a "visual novel"

[17:10] <darksydephil> the writers didn't do a good job of keeping the game moving, instead drew stuff out way too long.

[17:11] <darksydephil> let me give you an example: game of thrones which is actually called a Song of Ice and Fire

[17:11] <darksydephil> in the first 3-4 books George RR Martin does a great job

[17:11] <darksydephil> but then in the 5th book he completely loses his way. Takes entire chapters to explain nothing, just filler

[17:11] <darksydephil> the entire thing just falls apart

[17:11] <darksydephil> and i stopped reading hte books because of that

[17:12] <darksydephil> its the same with Danganronpa 2, there are great moments and then sadly you get stuff like today when we could have been done with this entire thing in 2 hours, not 4+

[17:12] <darksydephil> keep in mind theres like, 2 more hours to this trial, this was just the halfway point! lol

[17:12] <darksydephil> it massively overstays its welcome

[17:12] <darksydephil> thats the challenge of good writing. keeping your audience engaged. today totally disengaged me with that fucking puzzle room and the superfluous dialogue

[17:13] <darksydephil> the same happened during the second trial

[17:13] <darksydephil> does this mean the game is bad? not by any means. it just means they needed to do better writing

[17:13] <darksydephil> flaws like this become HUGELY apparent in a game where you rmain focus i sthe story and writing. if this game had a ton of gameplay it would mask the flaws in the writing far better

[17:14] <darksydephil> people expressed that they didn't want webcame etc during visual novel style games

[17:15] <darksydephil> i dont use one for walking dead or other telltale games either

[17:16] <darksydephil> yeah, im not saying i dont like Danganronpa 2, i do. trying to figure out the murders etc is crazy fun. But you can understand why i cant keep playing this kind of game. I mean i've dedicated like 10-12 hours this week ALONE to just this game and only beat 1.5 chapters! what the fuck

[17:17] <darksydephil> people are teling me this game is 30 hours long. it is NOT thirty hours long, its more like 50-60

[17:17] <darksydephil> each chapter is taking anywhere from 5-7 hours to complete at a minimum. Chapter 4 we'd already played for an hour, then today was 4 hours, and the conclusion will probably be 2 hours more

[17:18] <darksydephil> it pads it somewhat but not massively. remember the trials are fully voice acted

[17:18] <darksydephil> so you can't really speed by those parts unless you actually skip the voice acting lol

[17:20] <darksydephil> yeah i get that, theres no way this game is 30 hours long if you're actually playing it, doing free time, and paying attention. it's insanely long for any game's standards which is why i know this summer wasn't the tiem for it after just playing the first game. i mean we're literally getting half the amount of people watching thi splaythrough, most likely bc i JUST finished part 1

[17:20] <darksydephil> \$125 short, but keep in mind, people also get declined pledges too

[17:20] <darksydephil> only way we're hitting it is if people step up and do big pledges just for that reason. no way we're getting 25 people to pledge \$5 this close to the end of the month

[17:21] <darksydephil> yup i still have the jak collection

[17:22] <darksydephil> also people really dont seem to understand the power that the patrons choice gives you

[17:22] <darksydephil> in this one for the sonic game? only 30 people voted

[17:22] <darksydephil> i have over 80 people eligible to vote but more than half don't. just like the US government LOL

[17:22] <darksydephil> so just think about that

[17:23] <darksydephil> \$5 and you could concretely mold a full playthrough i'd be doing over a close period of time. thats crazy amount of power

[17:23] <darksydephil> people don't see it as that though

[17:24] <darksydephil> okay guys im out, gotta upload and get working on dinner. see you tomorrow for the indies marathon!

[17:27] <darksydephil> Patreon isn't kickstarter. Why don't people understand that lol

[17:27] <darksydephil> "someone who actually does something"

[17:28] <darksydephil> i put out hours upon hours of stream and video footage a day, FOR FREE. I do tons, i just don't put it onto a painted canvas. You're a moron

[17:28] <darksydephil> you know, because it was totally easy to spend 9 years of my life building up this internet following and making tons of sacrifices along the way to make it work. I do nothing! lol

[17:30] <darksydephil> that wasn't even a troll though, that was a genuine idiot. it takes work to be that ignorant

[17:31] <darksydephil> um

[17:31] <darksydephil> im uploading videos right now....

[17:31] <darksydephil> are you seriously complaining?

[17:31] <darksydephil> "i was joking"

[17:31] <darksydephil> LOL

[17:31] <darksydephil> great rollback there haha

[17:31] <darksydephil> thanks ThatAnonyMouse

[17:32] <darksydephil> see you tomorrow hopefully

[17:33] <darksydephil> it would depend upon when im playing them but more than likely the ps3 version considering i already have it. less money spent is the best option right now

[17:41] <darksydephil> Joe is someone who got popular doing an incredibly difficult, complicated style of video (dress-up cosplay skits and the like) and now he wants to do easy, fun stuff instead. And his viewerbase don't want him to do that because that's not what he's known for. It's a pretty simple situation and he's basically fucked

[17:41] <darksydephil> at least in my case I made sure to ENJOY the stuff I got popular for lol. I really like playing games and sharing daily with you guys

[17:42] <darksydephil> both AVGN and Nostalgia critic also got into the same exact situation and both are now forced to keep doing the videos they dont like making for a living bc nobody else watches the other shit

[17:43] <darksydephil> seriously. Watch the early AVGN vids from his first 4 years. watch ANYTHING he does now. holy fuck it's different

[17:43] <darksydephil> SirJamesDTech1 : he tried to cash in on youtube fads and the like and do the easy shit that tons of other worthless, drama-queen morons were making a living doing. Only it insults his original fanbase

[17:44] <darksydephil> imagine if i suddenly announced im only going to do 1/3rd as much gaming videos, but instead i'll be doing PHIL REACTS like everyone else as a major series

[17:44] <darksydephil> i dont think it would fly so well lol

[17:45] <darksydephil> when i started this thing on YT i made sure it was doing something i wouldn't end up hating. playing fun new and even retro games is just FUN to me. yeah there are frustrating parts about it but

there's such a wide variety of games to play, i never run out of content

[17:45] <darksydephil> Joe is fucked because he's pigeonholed himself into a situation where he wants to do easier stuff but people ONLY want to see him down the complicated vids he's known for. People will go elsewhere to see people just play games, sadly, because others have done that for ages

[17:46] <darksydephil> i wouldn't know, but when he's doing videos showing off "my free trip to Italy for Wticher 3" or "my new alienware PC" that he obviously got for free, i'd start questioning the validity of anything he does. i mean holy shit, imagine if i put out videos like that lol

[17:49] <darksydephil> YouTube revenue will always be half of what it was IMO. You NEED either millions upon millions of views on every big video you release OR a great Twitch following to survive now

[17:50] <darksydephil> Luckily i have a combo that's at least working for now

[17:54] <darksydephil> yeah i dunno anything about him on that level, as i don't watch his stuff, so no idea if he overspent or anything like that. if he's in my situation, he's fucked lol

[17:55] <darksydephil> It could just be that Joe is now used to a certain lifestyle of massive travel and industry attention, and being that he's now making half as much money, he can't maintain it anymore. And he's upset bc that was the part of his job he actually liked, while making the reviews etc. he hated over time bc of the incredible amount of work that went into them

[17:56] <darksydephil> i mean Joe travels a ton for cons and events, and a lot of that is out of his pocket. He's not making tons of dough attention a convention or covering some gaming press event. His money comes from his videos

[17:57] <darksydephil> i haven't had real in-person social interaction on a regular basis since like, 2007. before youtube started. once i started with youtube that all went away. that's part of the sacrifices i keep bringing up to make this work. i can't have regular friends with the amount of time i put into this job

[17:57] <darksydephil> before that it was mostly coworkers or my Street Fighter buddies

[17:58] <darksydephil> SirJamesDTech1 i can personally attest to that

[17:58] <darksydephil> when i lived in CT i had tons of money

[17:58] <darksydephil> as soon as i moved out here, poof, gone

[17:59] <darksydephil> and yeah i have a nice house but outside of that all the fun stuff i used to do, i couldn't afford. no more crazy fun vacations or attending cons, no more frivolous spending whenever i wanted. i mean shit, i can't even buy stuff for the business whenever i want anymore

[17:59] <darksydephil> i live 1 hour from PAX West and never attended it. always had to stay home working

[18:00] <darksydephil> moving back is impossible. it cost me over \$7k to move here. I don't have anywhere to even put this stuff. it would take months to sell it all off. it would be a nightmare essentially to move back to connecticut, and would destroy the business as it'd take far too much time away from being able to work

[18:01] <darksydephil> plus that would just go right back to insanely high taxes etc

[18:01] <darksydephil> i can't even get an apartment now, my credit is awful. wouldn't pass that check lol

[18:01] <darksydephil> i need to make this keep working for at least a couple more years until i can pay down some debt

[18:02] <darksydephil> i can't drive cross country! LOL

[18:03] <darksydephil> i haven't driven on a highway in nearly 10 years

[18:03] <darksydephil> my back injury

[18:04] <darksydephil> um my folks are old, and both of them also have bad backs

[18:04] <darksydephil> it's not gonna happen. people think that everything is magically cheap or doable because they still think im 20 years old lol

[18:06] <darksydephil> i need to do one of two things, both of which involve me making YT and twitch work for a while

[18:06] <darksydephil> the first ideal situation would be wait a couple of years, pay down my debt, wait for my credit score to improve and then refinance this house. wrap all the awful CC debt etc into it at a low rate. That would save my credit and me

[18:07] <darksydephil> worse case scenario, wait 1-2 years to pay down my debt and sell the house, using the money to pay off a lot of the existing debt. and then since my credit score will have improved, get a good apartment or condo out here that's way cheaper but still suits my needs

[18:08] <darksydephil> but there's the likely 3rd scenario: shit doesn't work out with YT/twitch due to stuff

outside my control, i'm forced to sell this house FAST, sell the shit inside FAST, move back to CT. i honestly dont even know if that would work bc it would harm the business so badly and i may not even be able to keep up with the shit back there. may lose the condo in CT and then what?

[18:08] <darksydephil> thats not how life works

[18:09] <darksydephil> only kids say that shit lol

[18:09] <darksydephil> how do i magically formulate a plan b now? you can't

[18:09] <darksydephil> exactly

[18:09] <darksydephil> there was no way for me to tell in 2008 how things would go in 2010, or in 2012, or 2014, 2015 or now

[18:12] <darksydephil> no, i dont think staying on twitch would have helped anything bc i wasn't streaming in the "twitch manner" until March of this year

[12:32] <darksydephil> hello everyone

[12:33] <darksydephil> looks like we got some fanart overnight

[12:38] <darksydephil> rage arts ARE lame. blatantly lifted super moves from every other fighting game bc Namco had no idea what else to add to the franchise for 7, so just copied everyone else

[12:38] <darksydephil> tekken always relied on being unique, but in the case of rage arts they just copy/pasted

[12:39] <darksydephil> ive played tekken since the early 1990s, now 25 years later im supposed to remember they added in super moves from other franchises. my mind is already hard wired otherwise lol

[12:44] <darksydephil> "i like kekon better" but you're here on my channel instead of his, logic! lol

[12:45] <darksydephil> stream working for everyone?

[12:46] <darksydephil> ok great ill tweet it out

[12:46] <darksydephil> first game we'll talk about right now on prestream

[15:41] <darksydephil> uh oh

[15:41] <darksydephil> when did it go out?

[15:42] <darksydephil> i have to restart the stream

[15:42] <darksydephil> its a random windows driver issuse that happens from time to time

[15:42] <darksydephil> nothing i can do about it

[15:42] <darksydephil> brb
